Full-stack developer and computer engineer who has shipped custom CRM systems for 27 companies across Thailand, solo from requirements to production, with hands-on experience in AI engineering: LLM integration, voice AI (ASR, TTS, speech-to-speech) and agentic AI systems for business automation.

EXPERIENCE

Full Stack Developer · Protollcall Advance Service Co., Ltd. June 2024 – Present

- Architected and shipped tailor-made enterprise CRM systems for 27 clients in healthcare, finance, insurance and e-commerce, as the sole full-stack developer across the complete SDLC.
- Integrated Asterisk PBX telephony (AGI, AMI, Dialplan), AI-powered IVR (TTS/ASR/LLM), predictive dialers, real-time analytics dashboards and multi-channel APIs (LINE, Telegram, webhooks).
- Delivered and maintained 60+ customization tickets, from UI/UX enhancements to backend logic and database optimization.
- Hardened security per OWASP guidelines (XSS fixes, HSTS, session security, password policy) and built audit logging for compliance.
- Researched and prototyped agentic AI: an orchestrator coordinating sub-agents, LLM voice pipelines (ASR → LLM → TTS) and real-time speech-to-speech.

Clients include Bangkok Hospital Chiang Mai, Kasikorn Carabao, Thai VietJet Air, Isuzu Thailand, Rabbit Card and Inchcape Thailand.

Full Stack Developer Intern · The Siam Cement Group (SCG) April 2023 – March 2024

- Two internships, 6 internal platforms delivered end-to-end; built REST APIs (Laravel) and Bootstrap/JavaScript front ends with MVC, validation, CSRF protection and authentication.
- Dec 2023 – Mar 2024: 4 production apps for the Center of Excellence & Data Driven department: a reservation system, document reference tracker, area-based job dispatch platform and an event e-commerce store with inventory.
- Apr – Jul 2023: a software license request and approval workflow, and a company-wide IT asset tracking platform with full lifecycle management, used group-wide by 2,000+ people.

Computer Technician Intern · Advice IT Infinite Co., Ltd. September – December 2019

- Front-line hardware diagnostics, repair and technical support, servicing 5+ devices and 10+ customers daily.

EDUCATION

Bachelor's degree, Computer Engineering
Rajamangala University of Technology Srivijaya · June 2020 – April 2024 · GPAX 3.64

Vocational Certificate, Information Technology
Songkhla Technical College · May 2017 – March 2019 · GPAX 3.84

ACHIEVEMENTS

Professional Qualification, Software & Applications System Tester, Level 4
Thailand Professional Qualification Institute (TPQI)

Published research (TCI-1)
"Measuring of Words Similarity for Question Answering System for Diabetes". Journal of Applied Informatics and Technology, Vol. 5 No. 2, July–December 2023.

SKILLS

Web	PHP, Python, JavaScript, React, Flask, Laravel, REST API, HTML5 / CSS3, Bootstrap, UX/UI
AI	LLM integration (GPT, Gemini, Claude), multi-agent orchestration, ASR, TTS, speech-to-speech, AI IVR, chatbots
Telephony	Asterisk PBX (AGI, AMI, Dialplan), predictive dialers, call analytics
Data	MySQL, MSSQL, query tuning, ORM
DevOps	Docker, Git, CI, AWS, Linux, Zabbix
Security	OWASP, XSS, CSRF, SSL/TLS, HSTS
