Full-stack developer who has shipped custom CRM and contact-center systems for 33 companies across Thailand, solo from requirements to production, and now builds AI voice agents and agentic AI prototypes.

EXPERIENCE

Full Stack Developer · Protollcall Advance Service Co., Ltd. June 2024 – Present

- Architected and shipped tailor-made CRM and contact-center systems for 33 clients in healthcare, finance, insurance, aviation and e-commerce, as the sole full-stack developer across the complete SDLC.
- Built AI voice agents, auto IVR outbound systems fed by client APIs, and multilingual IVR, on Asterisk PBX (AGI, AMI, Dialplan) with predictive dialers, CTI pop-ups, dashboards, and webhook, LINE OA and Telegram integrations.
- Delivered and maintained 60+ customization tickets; hardened security per OWASP (XSS fixes, HSTS, password policy), added audit logging and masked personal data in report exports.
- Prototyped agentic AI with an orchestrator and sub-agents, and real-time LLM voice pipelines.

Clients include Bangkok Hospital Chiang Mai, Insurverse, Inchcape Thailand, Rabbit Card and Isuzu Thailand.

Full Stack Developer Intern · The Siam Cement Group (SCG) April 2023 – March 2024

- Two internships (Apr – Jul 2023, Dec 2023 – Mar 2024), six internal platforms built end to end: Laravel REST APIs and Bootstrap/JavaScript front ends with MVC, CSRF protection and authentication.
- A license approval workflow and an IT asset tracker, used group-wide by 2,000+ people; then reservation, document reference, job dispatch and event store apps for the Center of Excellence & Data Driven department.

Computer Technician Intern · Advice IT Infinite Co., Ltd. September – December 2019

- Front-line hardware diagnostics, repair and technical support, servicing 5+ devices and 10+ customers daily.

SELECTED PROJECTS

AI voice agents · Genius Track, Digiserve
Outbound calls from Genius Track's script, and an inbound demo for Digiserve's bid to KBJ Capital.

Flight change call-outs · Thai VietJet Air
A campaign API linked to VietJet's back end; prompts in five languages, picked by phone country code.

TV shopping CRM · Happy Products
Airtime, orders and telesales in one CRM, with warehouse stock sync and airtime sales reports.

Auto IVR payment reminders · TSR Living Solution
Outbound campaigns built from customer lists pulled by API, up to 30 lines at once, with a dashboard and reports.

Collection CRM · Kasikorn Carabao
Predictive dialer, dashboards over large daily call logs, LINE image sending and chatbot hand-off.

Callback system · Aioi Bangkok Insurance
A one-click callback queue for agents, an inbound call dashboard and call reports.

EDUCATION

Bachelor's degree, Computer Engineering
Rajamangala University of Technology Srivijaya
June 2020 – April 2024 · GPAX 3.64

Vocational Certificate, Information Technology
Songkhla Technical College
May 2017 – March 2019 · GPAX 3.84

ACHIEVEMENTS

Software & Applications System Tester, Level 4
Thailand Professional Qualification Institute (TPQI)

Published research (TCI-1)
"Measuring of Words Similarity for Question Answering System for Diabetes". Journal of Applied Informatics and Technology, Vol. 5 No. 2, July–December 2023.

SKILLS

Web	PHP, Python, JavaScript, React, Flask, Laravel, REST API, HTML5 / CSS3, Bootstrap, UX/UI
